

DUAL-LOCK STRAP LOCK

The D'Addario Dual-Lock Strap Lock provides a low-cost alternative to strap locks for additional instrument protection. Without need of modification, the Dual-Lock clips onto your existing strap button to prevent your strap from accidentally releasing. Additionally, the Dual-Lock can be clipped onto your instrument cable, securing your cable to your instrument to prevent the plug from being pulled unintentionally from the input jack. D'Addario Dual-Lock Strap Lock—protecting your instrument and your performance.

INSTRUCTIONS:

1. Place strap on instrument.
2. With strap in place, apply Dual-Lock clip onto strap button using large end of keyhole, making sure the bottom of clip goes under the head of the strap button.
3. Slide clip until strap button is in the smaller diameter of keyhole, allowing top half of clip to snap around strap button.
4. To secure the cable in place, slide cable through loop section of Dual-Lock clip before latching the bottom strap button. This will prevent the plug from being pulled from the input jack.
5. To remove, lift top portion of clip and slide toward keyhole opening.
